VOL. XXXI. No. 41. DIDSBURY, ALBERTA, THURSDAY, OCTOBER 11, 1934 \$2.00 per year. 5 cents a copy.

Mountain View Council Meeting

At the council meeting of the Mountain View municipal district held Saturday afternoon it was reported that the program of road grading in the municipality was well under way, but it was doubtful if the complete program could be carried out before freeze-up. Forty-seven miles of road have been graded with the elevator grader and it is expected that at least another ten miles will be completed before the end of the season.

The secretary was instructed to take up the matter of the road on the town line north of Township 33, range 28, which is the responsibility of the Municipality of Arthur. Up to the present that municipality has refused to build a reasonable road on that line, and application is being made to the minister of public works to have the matter adjusted.

The matter of the Olds-Sundre road was discussed, the council being responsible for one and a quarter miles of this road.

Several applications for the consolidation of taxes were approved, and matters of relief were discussed. Passing of the payroll and accounts comprised the balance of business.

Adjourn Natural Research Probe

The royal commission inquiring into whether Alberta is entitled to additional compensation in respect of natural resources alienated by the Dominion government between 1905 and 1930, has been adjourned until October 16. Mr. Justice Dyrart, presiding over the inquiry, gave counsel for Alberta, M. M. Porter, K.C., of Calgary, this length of time to enable him to obtain statistical and other data now being compiled.

Mr. Porter filed as exhibits numerous documents relating to group settlement of Alberta in the period that the Dominion administered the resources. No argument was presented, the proceedings being taken up entirely with the presentation of the technical memoranda.

"BUY IN DIDSBURY"

Enumerators Appointed to Register Voters.

The compiling of a Voters' List for each polling division has been ordered by proclamation of the Dominion Franchise Commissioner and the enumerators have been appointed.

Miss Emily Moyle has been appointed enumerator for polling division No. 8 Didsbury East consisting of that part of T. 31 R. 1 W. 5 M. lying east of the C.P.R. right of way.

Mr. Lynch-Staunton will register the votes in No. 9 Didsbury West consisting of T. 31 R. 2 W. 5 M. and that part of T. 31 R. 1 W. 5 M. lying west of the C.P.R. right of way.

The registering of votes will take place from Oct. 15 to Oct. 23.

The enumerators will sit at an appointed place on Nov. 13th, 14th and 15th for any person who shall desire to direct attention to any error in this list.

Big Yield of Oats.

Mr. Bert Radford reports that he threshed a field of oats for Mr. Robert Rennie this week that yielded 90 bushels per acre.

A 90 bushel yield is very good for any year, but for this season it is outstanding.

Swine Club Notes

A Swine Club Fair will be held at the Didsbury Fair Grounds on Wednesday, October 17. All members who have show pigs, namely, two feeders and one gilt, should have them in pens by 1 p.m. It is expected that there will be a judge present from Edmonton.

WEEKLY JOKE

Impatient customer: "Can't you wait on me right now? I'm in a hurry. I want two pounds of liver."
Good natured butcher: "I'm sorry madam, but these customers are ahead of you. You surely don't want your liver out of order do you?"

Didsbury Placed Third At School Track-Meet

The Didsbury Schools were well represented at the Intermediate Schools track-meet which was held at Crossfield on Friday last. Several of the local athletes made a splendid showing and in the aggregate number of points scored Didsbury stood in third place.

The standing of the various schools were:

Initials	273 points
Bowden	175 points
Didsbury	144 points
Crossfield	90 points
Carstairs	60 points
Olds	46 points

Senior Boys A

In the senior running event Al Brusso was outstanding and easily won first in the 100 yards, 210 yards and 400 yards and according to the timekeeper he made remarkable time in each event. His time for the 100 yards was 10 seconds flat; 220, 24.2-5 secs; 440 55.1-5 secs. He also took 3rd place in standing broad jump.

Goldie Gabel: 1st in pole vault; 1st in high jump; 2nd in hop, step and jump; 3rd in running broad jump.

Roman Holub: 2nd in shot-put.

Ed Carleton: 1st in half-mile.

Relay Race (open)

Don Lamont, Clarence Cunningham, Goldie Gabel and Al Brusso—second place.

Senior Boys B

Raymond Bellamy: 2nd in pole vault.

Russell Carleton: 3rd in running broad jump.

Clarence Cunningham: 1st in 100 yards.

Harold Gulliver: 2nd in standing broad jump; 3rd in hop, step and jump.

Don Lamont: 3rd in high jump; 2nd in broad jump; 2nd in 440 yds.

Senior Girls A

Dorothy Dippel: 1st in softball throw.

Senior Girls B

Laura Bulch: 1st in running broad jump; 1st in 100 yds; 1st in 50 yds; 3rd in standing broad jump.

Annie Holub: 3rd in hop, step and jump; 3rd in running broad jump.

Relay Race (open)

Lorna Carleton, Alma Cunningham, Dorothy Dippel and Laura

At Didsbury

Fish And Game Convention

Messrs. Adshad, McGhee and Gooder represented the Didsbury Branch at the convention of the Alberta Fish and Game Convention held at High River Saturday last.

A number of resolutions were passed regarding the game act and fishing regulations, the principal resolution asking that both fish and game be placed under the same department instead of different departments as at present.

In the evening a banquet was given the delegates by the High River Fish and Game Association and the Board of Trade at which Hon. Geo. Hoadley, Senator Riley and a number of Government officials spoke.

Mr. Max Herchel of Chipman was a visitor with the Pearson family this week.

Buhr—second place.

Boys Intermediate A

Benny Wyman: 3rd in high jump; 3rd in hop, step and jump.

Boys Intermediate B

Berty Bulch: 1st in hop, step and jump; 2nd in 100 yds; 2nd in running broad jump; 3rd in 440 yds; 3rd in shot put. Won 1st medal in this class.

Girls Intermediate A

Lorna Carleton: 1st in high jump; 2nd in 75 yard dash.

Betty Boorman: 2nd in softball throw.

Girls Intermediate B

Lola Cunningham: 3rd in 75 yard dash.

Lily Wilkins: 2nd in softball throw; 3rd in running broad jump.

Boys Junior

John Holub: 1st in 75 yd. dash; 1st in 50 yd. dash; 3rd in baseball throw.

Lloyd Erb: 2nd in hop, step and jump; 3rd in running broad jump; 3rd in high jump.

Engene Duerer: 2nd 50 yd. dash; 3rd in 75 yd. dash; 3rd in standing broad jump.

Contract Let for Grading Sundre Road

The contract for the grading of the 13-mile section west of Dog Pound Creek on the Sundre road, was among five grading contracts let by the provincial government last week.

The contracts were for standard grading on stretches of second-class dirt roads, which supposedly are to be gravelled next year, and which total 109 miles. The works were apportioned by tender.

The Sundre road was won by a bid submitted by Belya Construction Co., Calgary, and the same firm received the contract for 25 miles from Edmonton to Gibbons. The 17-mile stretch south and west of Carbon went to Fred Jackson, of Calgary, while 19-mile section from Hardisty to Highenden, and the 17 miles from Coronation to Veteran, were handed to Fred Mannix, Calgary. The 18-mile 70th, between Wainwright and Irma was awarded to the Western Canada Construction Co., Edmonton.

In no case was the amount of the successful tender revealed by the Hon. George Hoadley.

Neighbors Talk Hockey.

Olds is already talking hockey and the Gazette predicts the following lineup in the Big Four League this coming season:

Jack Roberts, goal; Earl McMahon, Electric Bill Ross and Duke Wainman, defence; Gooder Bros., (Hubb and Bob), Jim McKay, Alex Black, Red Bill Ross and J. Bulmer.

Among the new names mentioned is Duke Wainman, who played defence with the Drumheller Miners; J. Bulmer of Bowden, a former Gleichen player, and Jim McKay, who pitched ball for Olds this summer.

Evangelical Church Notes.

The pastor is beginning a series of sermons on Prayer. Sunday's sermon will be from the text: "After this manner pray ye: Our Father which art in heaven."

Uniform Price System Advocated

Introduction of a uniform price system throughout Canada as a means of distributing whatever benefits result from protective tariffs and of equalizing production costs, was advocated by J. D. McKenna, St. John, N.B. publisher, in a recent submission to the royal commission investigating Nova Scotia's economic situation.

Urging equalization of wholesale prices of all protected goods manufactured in this country, Mr. McKenna contended that Montreal and Toronto virtually monopolized whatever benefits resulted from protective tariffs. Eighty-five per cent. of manufactured goods came out of Ontario and Quebec, he said, and because costs of the finished articles included all the taxes imposed by governments, provincial and federal, it followed that people of other provinces purchasing these goods, had to "pay not only their own taxes but theirs as well and that comes to a pile of money."

His scheme to equalize costs and to standardize prices throughout the country, involves absorption by manufacturers of freight charges, a process with which many in Western Canada would be prone to agree. "This," Mr. McKenna claimed, would permit manufacturers to place their products on the market at a uniform price—the same in Halifax, Regina and Vancouver as in Toronto and Montreal. Press despatches note that at the close of his presentation, Mr. McKenna was complimented by Prof. John Harry Jones, of Leeds University, England, who noted as an economist, is chairman of the commission.

The contentions and proposals of Mr. McKenna are by no means new to Western Canada. Least of all are they new to a certain small group of Saskatchewan economic students who, for two years or more, has quietly been conducting inquiries along similar lines, with a view eventually of sponsoring a plan which might be adopted as a "Western Policy." This group has concentrated its attention upon the price structure, seeking to determine what inequities exist with it, noting more particularly the effects upon it and upon the purchasing power of the prairie provinces of freight, tariff and taxation costs.

The former favorable disparity in wage and salary scales as between Western and Eastern Canada having disappeared under stress of economic conditions, or being noticeable only in reverse, the Saskatchewan group has been seeking something to compensate the loss. Though prices of manufactured goods had fallen, the drop was commensurate with the drop in prices of farm products, and seemed to be determined largely by the reduced purchasing power of consumers in the West. Somewhere within this price structure, it was felt, lay certain factors which, if equalized or removed, would effect much-needed adjustments. Hence came the attack upon prices.

The Saskatchewan group has had stress on the fact that, with freights and tariffs have increased farmers' production costs, they have received no compensation from manufacturers of consumers' goods, nor have the advantages accruing to the industrialized areas been distributed as it was thought, they should be. From this it was argued that, as consumers, prairie farmers were encouraging a system which tended to centralize industry in the Toronto and Montreal areas, which areas derived direct benefits from local taxes payable by the industries and from circulation of the payrolls of such industries. This system, it was contended, placed the West under toll both at home and in the East.

It was felt, therefore, that, inasmuch as these advantages were accorded to the manufacturing areas of the East, there should be some compensatory factor, some method of distributing benefits, to all parts of Canada in the price structure. That is to say, while goods might cost a little more in the area of their manufacture, they would cost a little less in the area of their consumption. And inasmuch as the principle already is applied in the case of nationally-priced products, the proposition at first sight appears fair and just. The West will watch eastern reactions to the proposal made by Mr. McKenna, with considerable interest.

Not Very Profitable

Abraham Lincoln Made Very Little From Law Practice

When Abraham Lincoln was elected president of the United States, his bank balance aggregated \$901.41.

The original ledger showing his account now is on display in the Springfield Marine bank at Springfield, Illinois, where Lincoln was a depositor from March 1, 1852, until his death. His account after his death was continued by his administrator, Judge David Davis, of Bloomington, Ill., being finally closed on May 22, 1867.

The ledger in which his account appears is displayed in a glass and wrought-iron case. The ledger is turned to a page on which is written in fine script the name "A. Lincoln" and the entries on the page bear out the certainty that his income from the practice of law was meagre at times.

Value Of The League

Events An Immense Force In The Prevention Of War

There is a probably not a single country in Europe where the common people would blindly follow its leaders into war, if called upon to do so. All the nations of the world have in fact formerly renounced war as an instrument of national policy; and the machinery of the League of Nations exists for its prevention. It is quite certain that, if war were immediately threatened, or were actually to break out in one quarter, resort would be made to the League, whose power of collective action, even if never yet fully utilized, is potentially immense. Its mere existence has undoubtedly acted as a deterrent at least upon the lesser nations and upon those which are not removed by oceanic distances from Geneva.—London Times

WORLD HAPPENINGS BRIEFLY TOLD

The French plane, *Are-Eu-Ciel* arrived at Natal, Brazil, after successfully flying the south Atlantic from Dakar, French West Africa.

Dr. Carl Olof Jensen, one of the world's most eminent cancer research workers, died recently at Copenhagen of apoplexy.

A new attendance record was recorded at the Canadian National Exhibition with 266,000 persons entering the grounds on Labor Day.

The "Ontario Bulletin," official publication of the Ontario government offices in London, England, has ceased publication as the result of the government's decision to abolish the office.

The British Columbia board of industrial relations is considering minimum wage regulations for male office workers. Adam Bell, chairman of the board and deputy minister of labor, announced.

The U.S. farm administration reported that to August 31 it had purchased 4,256,000 cattle in more than a score of drought states, for which part payment of \$38,811,870 already has gone to nearly 250,000 farmers.

Returned from a five-week tour of the northwest, St. John, western district manager for South Fisheries Canadian Co., Ltd., said that the fish catch in the northern prairie provinces has been "enormous" this summer.

A delegation of the Japan Prohibition League visited Premier Keisuke Okada and urged that the sale-allowing official give up the use of alcohol. The premier listened long enough to ascertain the object of his visitors and then turned away without answering.

George Batho, of the Manitoba department of agriculture, announced the finding of a new weed plague in Manitoba. Field bindweed, he said, had been located near Winkler, in the southern part of the province. He said it was the first time the weed has been encountered in Manitoba.

COULD NOT SEW A BUTTON ON

Her Hands Were Helpless With Rheumatism

At one time she thought she would lose the use of her right hand. But "a blessing" in the form of Kruschen Salts—put her right again.

"I was sure in a bad state," she writes. "In fact, I could not do my housework. I was so bad with rheumatism in my arms and hands. I could not move my joints, and I thought I would lose the use of my right hand. I could not hold anything, nor could I sew a button on. My arm would go dead. I was advised to try Kruschen, and inside of three weeks I found such a change I have kept on taking it, and now I sleep all night—thanks to Kruschen's food and relief." Mrs. J. H.

Two of the ingredients of Kruschen Salts have the power of dissolving uric acid crystals, which are responsible for rheumatic agony. Other ingredients of these salts assist Nature to expel these dissolved crystals through the natural channel.

Wheat Situation Hopeful

Supply For 1931-35 More Closely Related To Probable Demand

The crop year 1934-35 is commencing with the general wheat situation not without its hopeful aspects, the Dominion bureau of statistics states. The supply of wheat available for the present cereal year has been greatly reduced by virtue of a second successive crop disaster in the United States, the certainty of a low yield in Canada, a sharp reduction in production in many European countries and the prospects of a small crop in Australia. These developments combine to produce a situation where the available supply of wheat is more closely related to probable demand than at any time in recent years, the bureau said.

According to the United States department of agriculture, production of corn, wheat, oats, barley, rye and flaxseed are expected to be the smallest in 50 years.

Border Cuts Off Hospital

Free State Board Has To Cross Line To Inspect It

Derry Port sanitary board has just held a remarkable meeting, the members leaving Northern Ireland to go into the Free State to deal with the business for which the meeting was summoned.

The board crossed the border in taxis to inspect its hospital at Ballyrattin, near Moville, in County Donegal, a hospital which has never had a patient since its opening thirteen years ago. It was built to deal with cases of infectious disease on vessels coming to Derry, but before its completion, the border had been created, with the result that the board was left on one side of the border and the hospital on the other.

No solution of the situation has yet been decided and the board decided to effect repairs to the institution, the chairman remarking that "the present state of affairs cannot go on forever."

It Could Be Done

Midland Gardener Used Only Waste Water For Plants

At the Midland Bank Horticultural Society's show it was remarked that the winner of seven prizes exhibited blooms watered entirely with wastewater, bath-water, basin-water; at any rate not fresh tap water, of which he proudly boasted that he had not used a drop in his garden during these months of drought.

It can be done. Therefore it ought to be done as King Edward was fond of remarking mainly of things that were not done in his time. Do not ask us, please, how to get or convey bath water. Either find out, or don't use any water. A moral maxim for horticulturists.—London Daily Mirror.

Switzerland Heads List

Leads All Countries In Annual Consumption Of Milk

Statistics released by the Department of Agriculture show that Switzerland leads all other countries of the world in the annual consumption of milk, with 250 quarts per person.

Second place for this distinction is shared by United States and Germany, each of which boasts of 220 quarts per person. Canada ranks next with 200 quarts.

The figures on other large milk-drinking nations also computed annually and per person, are as follows: Great Britain, 120 quarts; France, 100 quarts; and Chile, 30 quarts.

Dontkeeper—Say, come back. Dogs are not allowed in here, sir.

Visitor—That's not my dog.

Dontkeeper—Not your dog? Why, he's following you.

Visitor—Well, so are you.

Little Journeys In Science

CORN PRODUCTS

(By Gordon H. Guest, M.A.)

Corn, which grows abundantly on this continent and in the West Indies, is perhaps one of the most widely used grains. Apart from being a common food in the form of meal or cereals, the kernel when opened, is found to have three parts: the outside, or husk, the small oily germ, and the mass of white material which is mostly starch.

One bushel of corn gives approximately one pound of oil which is refined and sold as a vegetable fat for cooking. The less refined grades are utilized for soap making or for the production of glycerine and nitroglycerine.

Starch from the corn is made into corn starch, for cooking, and into laundry starch.

Another important use of this grain is in making corn syrup which is a widely used product. Corn syrup is made by converting the starch in the corn into a sugar, known as glucose, through treating it with acid in large pressure tanks under fifty pounds of steam. This treatment changes the starch into the thick sweet substance which we know as corn syrup.

From corn also is extracted a type of gum, which is used in place of rubber to some extent. "Red rubber" erasers and sponges may be made from this substance. It is also used in the manufacture of rubber soles for shoes.

Outer husks of the corn and some residue of the oil products are made into cattle food, adding still another to the many products of this common grain.

Few People Escape Attacks Of Summer Complaint

Summer Complaint may be slight, or it may be serious, but you can't tell when it seizes you how it may end. Allow the profuse diarrhea, the vomiting and purging to continue, for a day or two, and you may become weak and prostrated. Just as soon as you feel any looseness of the bowels go at once to your druggist and get a bottle of Dr. Fowler's Extract of Wild Strawberry and check this up natural action before the weakening looseness can get started. Don't experiment. Get "Dr. Fowler's." It has been on the market for 88 years.

Radio-Telegraphic Service In Northern Hinterland Now Proving Of Great Importance

Radio telegraphic business in the North West Territories is increasing with indications the current year may establish a peak for the service. Installed about six or seven years ago the chain of wireless stations, operated by the Royal Canadian Signals, a branch of the permanent force, is busier with commercial traffic than with official or departmental work. This chain extends from Edmonton to McMurray and from that point, which is the terminus of the line, down to the mouth of the Mackenzie River.

The principal stations are at Fort Chipewyan, Fort Smith, Rae, Repulse, Fort Norman, Camels Bay and Cameron Bay on Great Bear lake, and Akavik. Two radio posts are operated in the Yukon, at Mayo and Dawson. The most northerly is at Herschel Island.

The general movement into the north country has emphasized the importance of the government's chain of wireless stations. Mineral deposits around the shores of Great Bear lake have resulted in the establishment of numerous small settlements in that region, while reports issued from Fort Chipewyan indicate a rush of gold prospectors to the latest discovery on Lake Athabasca.

Of prime importance, particularly to agriculturists and to shippers of perishable goods, are the daily meteorological reports sent by the government signalers. The weather for the North American continent is "made" in the valley of the Mackenzie River, and the compiling of these at Toronto constitutes one of the most important of government services.

Highest In World

Great Britain Nets Millions From Succession Duties

The St. Thomas Times-Journal says: "In no country are the succession duties so high as in Great Britain, where, if the estates are large enough, the Chancellor of the Exchequer confiscates almost the heir's share of the amount. The Cowdry estates are a case in point. The first Lord Cowdry died in 1927, leaving an estate valued, in dollars, at 20,000,000. The death duties amounted to \$8,000,000. In 1932, his widow died, her estate probating at just over \$7,000,000. Of that amount the Treasury garnered exactly \$3,000,000. This year the second Lord Cowdry passed away leaving about \$2,500,000, and the duties were around \$750,000.

"So that these three deaths netted for the government nearly \$12,000,000 out of an estate that was originally \$20,000,000.

There is not much left for the third Lord Cowdry, who is the only son, and his five sisters. The British Treasury certainly makes the rich pay."

Bishop's Bribe Shown In Cathedral Paintings

Structure Said To Have Been Built As Penance

Wall paintings 800 years old have just come to light in Norwich cathedral, England, as the result of restoration work by Professor Tristram of the Royal College of Art.

Especially interesting are three medallions supposed to depict the life story of the cathedral founder, Bishop Herbert de Losinga. The paintings bear out in a remarkable way the tradition that Losinga built the cathedral as a penance for buying the bishopric.

One medallion shows the bishop passing money across a table. The next shows him clothed in the full robes of a bishop with hands joined in prayer, and the last one is a picture of the completed cathedral. Professor Tristram says the paintings may last another 100 years.

A novelist, who confesses that he is a bad sailor, declares that he has never yet discovered any pleasure in a sea-trip. As far as he is concerned, it is all blank.

Development Of Television

Trials Made In Germany Said To Have Resulted Favorably

The German post office announces a spectacular plan to introduce "television-telephony" in the near future.

Trials between Berlin and Munich were reported to have resulted favorably. Postal authorities planned to install television-telephony not between the larger cities, further extension of the system depending on public reaction "because of the still high cost of apparatus."

The announcement was made while Germans still thrilled at what technicians called "satisfactory" sound film broadcasts, which were demonstrated at the 13th German radio show by means of a "televising car."

Daily transmission of tone films taken from the top of a television set of the German Radio Company stationed in the immediate vicinity of Berlin's radio tower captivated thousands at the radio show.

Scenes were shot with an ordinary sound picture camera from the top of the car and were developed and ready for reproduction after 75 seconds. The car was equipped with developing and transmitting apparatus.

The technical side of the procedure reveals that each picture is dissected into dots by means of a perforated disc. The dots are converted into electric impulses which are broadcast on a seven-metre wave length while sound is transmitted simultaneously over an ordinary radio wave.

Technical appliances permit transmission of 20 pictures a second.

The receiving set is equipped with a large tube based upon the cathode ray system. The tube produces a short stream of invisible electrons which are thrown on a fluorescent screen. The pictures appear clearly.

Should A Duck Swim?

Too Much Exercise Bad For Them States Authority

From the creation of the first farmyard pond has been regarded as the essential complement to the duck's happiness.

Now comes "Duck and Goose," a bulletin published by His Majesty's stationary office, to chide the farmer for believing that his ducks should swim. Swimming is only a purposeless recreation where ducks are concerned, according to his authority. Though it is grudgingly admitted that swimming tends to keep ducklings clean of body and contented of mind.

Swimming, says the bulletin, provides the ducks with too much exercise.

"It is dangerous for any girl to throw herself at a man, however eligible he may be," we read. But where is the danger if he is a good catch?

By Roth Rogers

PARIS FAVORS ROMANTIC COVERED SHOULDERS AND FLUTTERING HEM FOR EVENINGS

Today's pattern brings this Paris dress to your very door. The allure of the covered shoulders makes it so much more feminine and fluttering. The fluttering hem trails the ground.

You'll look as pretty as a picture in this dress of crisp slipper satin in violet-blue as the original model. It could be carried out in Lyons velvet or tulle, with equally charming result.

It's simplicity itself to make it. The small cost will surprise you. Style No. 459 is designed for sizes 14, 16, 18 years, 36, 38 and 40 inches bust. Size 16 requires 3 1/2 yards of 29-inch material and 7 yards of lining. Price of pattern 29 cents in stamps or coin (cash is preferred). Wrap coin carefully.

Efficiency Of Inspectors Has Made The Dominion The Best Egg Market In The World

Starting Western Career

America Recognizing Importance Of Soy Bean, Popular In Asia

The soy bean, which is the sustenance of so many millions in Asia, is beginning to have a career in America. Those who do not know its excellence broken to them gently or they will be unable to accept all the glowing testimonies paid to its worth. Soy beans are as good as a wife and family and a farm to boot, if one ever does boot a farm. They can be made into almost anything, including fresh milk from the cow without the intermediary assistance of the cow.

Soy beans can also be made into various foods and into motor car accessories, fuel oil, glue, soap and other commodities. Henry Ford has an idea that soy beans may turn small farms into factories, for once the beans are raised they can be manufactured into almost anything the farmer chooses. Ford is encouraging this view by planting a model plot and having them displayed in Chicago. They are not yet being raised in quantity, but if the farmers of America once start growing them, their hardy qualities will make them a favorite crop. The Church bug won't touch them, though other caterpillars find them toothsome.—Hamilton Spectator.

Objects To Purple Roofs

Lord Leverhulme Has No Freak Buildings On His Estate

Plans for preserving the amenities of the countryside were revealed by Lord Leverhulme at a meeting in London, where he spoke of a ban on sham timber and the prohibition of purple roofs in his Cheshire estate.

"On my estate in Cheshire," he said "I have a rule that no building may be erected on any land I sell or lease without the plans and elevations being approved by my advisory architect."

Some conditions Lord Leverhulme imposes are yellow brick not to be used in the elevations; terra-cotta, glazed or hard patent red bricks are not to be used in face work; purple slates are not permitted on roofs; all half-timber work must be properly constructed and framed together and must not be sham; and no colored glass shall be permitted in the windows.

Within reasonable limits, his lordship added, a great deal could be done to prevent some of the bad development at present taking place.

Cactus plants cannot live without water, and they grow better in summer if they get a good deal of moisture.

The famous dust storm of 1901 which fell practically all over Europe had its origin in the Sahara Desert.

Price cutting through misrepresentation of quality is effectively controlled in Canada so far as eggs are concerned through the rigid application on consuming markets of the egg grading regulations. The egg inspection staff of the Poultry Services of the Dominion Department of Agriculture is constantly guarding the interests of the producer in this respect. Since the first of the present year twenty-eight prosecutions have been conducted against wholesale and retail distributors in the larger centres for misrepresentation of grade. All these prosecutions were successful and fines were levied in each instance. The minimum fine under the Egg Regulations is \$25 and the maximum \$500.

The Canadian Egg Grading Regulations were designed with one major object in view namely, to improve prices and marketing conditions in the interests of producers. In the various activities of the egg inspection service none is regarded as more essential than that of preventing eggs of an inferior grade being sold under a higher grade at reduced prices.

The majority of wholesale and retail distributors of eggs in Canada make an honest effort to sell eggs under their proper grade. Occasionally, however, in the stress of business competition, an attempt is made to gain trade through offering at reduced prices eggs which are represented to be of the highest grade but which really are of inferior quality. There is, also, a certain class of traders with whom such practices are common. If a constant check on misrepresentation of this nature was not maintained the result would be a continual decline of egg prices.

The quality and grading of eggs in wholesale and retail stores is subject to continual supervision by officers of the Dominion Department of Agriculture egg inspection service. Where eggs are below grade they are required to be regarded or marked with their proper grade name. Shipments from a wholesaler to a retailer, when found below grade, are required to be returned to the seller, where infractions are continued or flagrantly deliberate, legal action is taken. This constant vigilance on the part of Canada's egg inspectors has made the Dominion over a period of years, the highest priced egg market in the world.

Will Improve Conditions

Philadelphia Zoo To Use Moats Instead Of Fences

With a view toward providing the animals with conditions approximating their native habitats, the Philadelphia Zoological Garden is now engaged in an extensive program of eliminating fences around animal runs.

Soon all the animals in the zoo, including lions, tigers, leopards, etc., will be roaming about in areas resembling their natural habitat, with no suggestion of an enclosure between them and the public.

This will be accomplished by substituting wire fences with deep, concrete-faced moats, over which it will be impossible for the animals to leap.

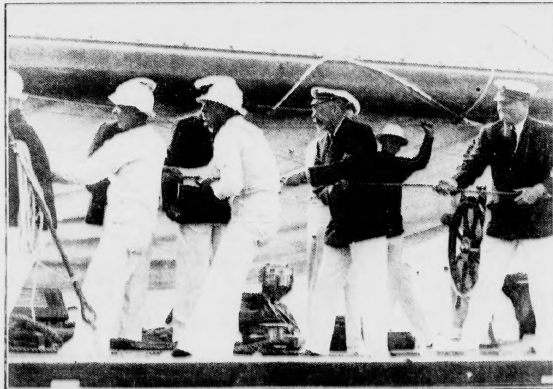

Looking across the moats, which are concealed by a slight rise in the ground level, visitors are given the impression the animals are roaming about free, with no enclosure of any sort.

Two such "fenceless runs," built with CWA funds, already have been opened. One is occupied by the bison herd, while the other run is occupied by two bad-tempered llamas.

In a snake pit, built along similar lines as the "fenceless runs," visitors may view more than ten llamas, turtles and snakes mingling together in their natural surroundings.

Variety Of Products

Canada shipped a large variety of products to South Africa last year—over 200 different commodities, including apples, rolled oats, wheat, flour, canned vegetables, binder twine, preserved fish, lumber, agricultural and other implements, etc.

King George joins with the crew in hauling on the main sheet of his yacht "Britannia," which won the race for big yachts of the Royal Southampten Yacht Club Regatta at Cowes, Isle of Wight.

Relatives & Tenants Must Register for School Elections

Owing to the 1934 amendment to
the School Act, the qualification of
Elector has been changed in order
that tenants of lands situated within
the town school district, but outside
the town limits, and also relatives
of ratepayers in the school district
outside the town limits may vote,
they must register at the Town
Secretary-Treasurer's Office before
the end of October.

The Town Voters' List governs
the qualification of Electors in the
school district.

Notice to Relatives of Persons On the Assessment Roll And to Tenants

Notice is hereby given that during
the months of September and October
applications may be made under the
provisions of sections 188 of the
Town Act for inclusion in the voters'
list of the Town of Didsbury by the
following persons, namely:

The wife, husband, father and
mother, and every son and daughter
of any person whose name appears
upon the assessment roll are entitled
to be placed upon the said list—

(a) if he or she is resident with
the said person within the town or
assists him in business in respect
of which he is taxable; and

(b) if he or she is of the full age
of twenty-one years; and

(c) if his or her name does not
already appear on the roll.

Tenants who have rented an
assessed parcel for a period of
twelve months immediately preced-
ing last day of August of this year.

TOWN OF DIDSBURY

W. A. Austin, Sec. Treas.
August 29th, 1934.

Industrial Conditions are Better

Noting a slight improvement in
general industrial conditions through-
out the Dominion, the monthly letter
of the Canadian Bank of Commerce,
issued last Thursday, stresses this is
due not to external influences but to
such domestic factors as slight better-
ment in the position of agriculture,
and continued good volume of new
construction.

Export trade in August fell less
than the usual amount, but the decline
was the second of the summer.
Featuring exports was the marked
rise in grain exports, chiefly wheat,
which nearly offset a recession in
most other commodities, notably
animal, forest and metal products.
The letter regarded the volume of
wheat exports as disappointing, not
having equalled the monthly average
necessary to sustain Broomhall's esti-
mate of Canada's shipments for the
current wheat year, resulting in Ar-
gentina outstriking the Dominion in
the world market.

Canadian grain estimates will be
slightly larger than those of 1933,
but this is due to increased yield in
certain favored sections of Quebec,
Ontario, Alberta and B.C.

Fire Prevention Week.

This week, October 7 to 13, has
been designated "Fire Prevention
Week" by the Governor General
and during this week owners and
occupants of property everywhere
throughout Canada are counselled to
give special attention to the
removal of fire hazards from their
premises.

The proclamation in the preamble
states that "It is shown by reliable
statistics that at least eighty per
cent of the fires which occur origi-
nate either directly or indirectly
through inexcusable ignorance and
neglect and are therefore prevent-
able and that the exercise of
reasonable prudence and proper
carefulness on the part of responsible
individuals would reduce the losses
by fire in Canada to the comparat-
ively insignificant proportions of
losses in other countries."

Among other things the proclama-
tion asks:

"All dwellings and their surround-
ings be carefully inspected by
their occupants and all conditions
likely to cause or promote the
spread of fire removed."

"All public buildings, stores,
warehouses and factories be inspec-
ted and cleared of rubbish in order
to reduce fire hazards and maintain
health and safety."

"Fire drills be held for the
children in all schools, for the in-
mates of all institutions and for the
employees on all large stores and
factories in order that a greater
degree of safety may be ensured by
acquainting the occupants with the
best and most expeditious mode of
exit in time of danger."

Guarantee is Being Met.

Announcement has just been made
that the Alberta Wheat Pool for the
third successive year has met its
marketing obligations in full, together
with interest due to the provincial
government in connection with the
1929 Wheat Pool overpayment.

At the time the government guar-
antee was agreed upon there was
considerable misgiving as to the
ability of the pool to make repayment
in view of conditions in the wheat
market. The record of repayment
to date is reassuring. The pool has
been doing a fair share of the grain
business of the province.

It will be a most desirable outcome
if the pool can pay off the govern-
ment guarantee and thereby re-
establish the equities of thousands
of farmers in the big line of elevators

The Practical - - and the Ideal.

ALBERTA POOL ELEVATORS is a creation
of the Agricultural Co-operative Movement, and
as such is closely knit to the families on the land
who BELIEVE in and ACT upon the Principles
of Co-operation in order to better their condition.

COMMERCIAL SUCCESS is highly important
—but it is to be regarded only as a means to an end
—the improvement of the living conditions of
rural people.

The Major Function of this extensive country
and terminal elevator system owned by Alberta
Farmers, is to give support to their natural aspira-
tions for a more secure rural tenure.

Both the Practical and the Ideal sides of the
farm movement are united in Alberta Pool Eleva-
tors, and on this basis a general appeal for support
is extended to all grain growers.

Melvin Notes

Miss Marian Laeson of Calgary spent Thanksgiving with her parents Mr. and Mrs. F. W. Laeson.

Mr. and Mrs. Jeff Ray and Mr. Clarence Larsen of Garfield spent Sunday with Mr. and Mrs. Johnston.

The Rugby W.I. will hold a baby clinic on Wednesday, October 17th at Mrs. Wahl's. All mothers remember the date and bring all children of pre-school ages.

Mrs. Bliss and babe Delores, Joan, returned from the hospital to Mr. and Mrs. Krebs on Tuesday.

Several from the Westcott Church attended the reception to Mr. Mitchell on Tuesday evening and escorted Mr. Mitchell's travel talk on his trip to Ontario.

Mrs. Shannon is visiting her brother Mr. Duncan Bell east of Didsbury.

Mr. Frank Kyncl of Drumheller spent Sunday with Mr. Landeen.

Miss Audrey Hoesgood is spending a few days in the district helping the ladies threshing.

We are sorry to hear that Mrs. Landeen is confined to her bed. We hope she will soon be around again.

Burnside Notes.

There will be a dance at Lone Pine Hall this Friday evening, October 12. Halliday's Orchestra will furnish the music.

Mr. Stanley Coyne spent Tuesday evening with Mr. George Metz.

Miss Dorothy Cippeler spent the weekend at her home here.

Mr. Fred Metz was a Tuesday evening visitor at the Eckel home.

Miss Helen Pross spent Monday afternoon with Mrs. B. Woods.

Mr. Robert Eckel spent Sunday evening with Mr. Bert Viney.

The students of the Didsbury High School, whose home are in this district, spent Thanksgiving here.

Mr. and Mrs. Otto Bittner were Sunday evening callers at the home of Mr. and Mrs. A. A. Jenkins.

RUGBY NOTES

The October meeting of Rugby W.I. was held at the home of Mrs. John Clarke with an attendance of twelve. It was decided to hold a sale of work on November 30. Mrs. E. B. Parker gave a most comprehensive and instructive talk on "The Bank Act and the Central Bank." The next meeting will be held at the home of Mrs. D. Evans on the last Tuesday in October instead of the usual day. Weather permitting the pre-school clinic will be held October 17 at the home of Mrs. A. Wahl. Dr. Cody of Calgary will be in charge.

"The Power and The Glory."

"The Power and The Glory," reported as Jesse L. Lasky's most important film, in a career replete with important films, comes to the Didsbury Opera House this Saturday.

The story of the film cannot be separated from the method in which it is told. Through a new medium evolved by Lasky, the film reveals the important events in the life of a man who rises from most humble beginnings to a position of great power and influence. It shows his rise from a simple young man without any education to a figure of national importance, with manifold interests and great wealth. It depicts events which make his life a complication of intrigue, adventure and romance.

The new method of screen storytelling is called "narrative" and is said to pre-empt a new form of motion picture technique. It takes the story out of its usual chronological order and emphasizes only the incidents important to the pattern of a lifetime.

Spencer Tracy, in the leading role, has a characterization heralded as the outstanding one of his career, presenting him with almost unlimited opportunities for a varied portrayal. Colleen Moore, absent from the screen for three years, makes her return in the leading feminine role opposite Tracy.

IMM ESTATE**AUCTION**

What Does Your Handwriting Tell?

By LAWRENCE HUBBERT
(Grapho-Analyst)

(At Right: Turret)

Handwriting analysis, to be accurate and helpful to the writer, must be based on lengthy research and a painstaking regard for basic values.

I am repeatedly asked if there is anything magical about character reading from handwriting. So I am taking this opportunity of again stressing that when I make an analysis of a specimen of hand writing, I am not literally taking a rabbit out of your hat but, in the approved computing manner!

It may seem to the lay-person that, for a Grapho-Analyst to give what turns out to be an accurate analysis from handwriting, is to perform a regular magician's trick, a sort of Houdini cum Maskelyne cum Thurston device.

Nothing could be further from the truth. It is simply a scientific evaluation of the indications revealed to the practiced grapho-analyst's eye by the handwriting specimen. When you go to a doctor, and he tells you that you have a certain organic ailment, you do not impute him mentally as a magician. You know that his medical education, his training, his research and his practice, have all coalesced into an ability to diagnose ailments. He himself will not regard himself as infallible; he may quite possibly, call in extra-medical advice from his confreres.

And even if, on occasion doctors do, he makes a mistake, you do not stigmatize medical men as quacks. Because doctors have not yet found a cure for cancer, you do not hesitate to go to a medical man when you are suffering pain, or feel that you have some physical derangement.

Grapho-Analyst, the medicine and surgery, is still searching for hidden truths about its own science. It is making tremendous progress steadily. But do not damn it because, sometime in the past, you have been disgusted with one particular member's analysis.

I have been asked of what practical value is it to people, to have their handwriting analysed. As well might one ask what use is it to a salesman to learn how to become a better salesman, or a business man to know more about his business, or a nurse, to gain a better understanding of, and more tolerant sympathy with her patients.

For, as all those sensible suggestions, so it is essential for you to know yourself. Grapho-Analyst shows you not only your general characteristics, but hidden tendencies that may burst into characteristics at any time.

It shows you where are your faults, and thereby gives you a chance to correct them. And it always puts a person on the path to greater personal understanding, and enables one to get more from others. Here are a few brief extracts from analyses made for readers.

E. C. There is a frank generous and sympathetic nature revealed. One who longs for affection, but is sensitive to praise or blame; too sensitive, perhaps. You have strong desire for intellectual companionship, and have a love of the beautiful in nature or art.

T. A. Your writing indicates that you have an acquiring turn of mind; you wish to get at the bottom of things, but you are likely to be a little forgetful about those things in which you are not interested and to slight them. Don't let this worry you.

A. W. You have a material nature, and are likely to consider your own interest at all times before responding to appeals from others. You are not inherently generous. Do not let this tendency develop into "tightness" or "neurosis".

Do you want a personal analysis of your own handwriting, showing your faults and virtues? It will probably amaze you with its revelations of your character, and may open the door of opportunity to you. Send a letter in your normal writing, and state your exact address. Enclose with the coin for each specimen and 3¢ stamped address envelope to Lawrence Hubbert, Grapho-Analyst, c/o W. N. U. 2663, Regina, Ontario, 175 McDermott Ave., E., Winnipeg.

Racial Prejudice

Britisher Says Canadians Will Find Strength In Union

Citizens of the Dominion be they of French, English, Swedish, Irish or Scottish ancestry, were warned against racial prejudice and urged never to forget that first, last and always they are Canadians. Reminding that "you will find strength in union," came from Rt. Hon. H. A. L. Fisher, former member of parliament in Great Britain and winner of New College, Oxford, speaking at a civic luncheon in Montreal tendered the official delegates of Great Britain, France and the United States to the quarter-century Jacques Cartier celebrations.

Silence Zone

Motor Horn Order Gives British People A Chance To Sleep

An "anti-honking" order to motorists during sleeping hours has proven so successful in London that the ministry of transport has decided to extend it to every city, town and "built-up" area in the country. Thus England will become a vast silence zone between the hours of 11:30 p.m. and 7 a.m. so far as motor horns are concerned.

"I think I'll take my furs to the furrier to be cleaned," said the uppity girl.

"Perhaps suggested the low-brow friend, "you ought to take them to a hare dresser."

Gliding tests are to be made by German air pilots over the South Atlantic.

Colonization Finance Corporation

Inspection Trip To The West By Officials Of The Organization

Mr. Louis L. Lang, of Galt, Ontario, president of the Colonization Finance Corporation, stated on arrival at Winnipeg, "This is the second inspection trip made by myself, but is the first trip which is being undertaken jointly with executive officers of member companies associated in the work of the Colonization Finance Corporation. My colleagues on this inspection tour are Mr. J. F. Weston, vice-president of the Colonization Finance Corporation and managing director of the Imperial Life Assurance Company; A. N. Mitchell, general manager of the Mutual Life Assurance Company; and W. H. Somerville, general manager of the Mutual Life Assurance Company. We are interested in the farm management program of our corporation because we realize what improvement in agriculture means to Eastern Canada as well as to the business interests in the West. This year marks the fifth year of the operation of our corporation. Beginning in 1929 with 25,000 acres under the supervision of two farm managers, we have at present a staff of fifteen farm managers and assistant farm managers covering all of Manitoba and Eastern Saskatchewan. The zone farm managers' headquarters are at Winnipeg, Carleton Place, Portage la Prairie, Brandon, Kildare, Deloraine, Virden, Indian Head, and Dauphin in Manitoba; and Oxbow, Moosomin, Weyburn, Indian Head, Yorkton, and Canora in Saskatchewan. These men have under their supervision 1,782 farms, totaling 602,382 acres. About 70% of these farms are occupied and operated by farmer owners. The balance of our member companies being represented by mortgage of an agreement of sale. Only one of the farms are operated by tenants. One of the objects of our work is to assist farmers to retain the farms they are at present operating by co-operating with them in any improvements which are possible, and also to make it possible for a substantial number of tenants to purchase the farms which they are at present farming under lease. The farm management service supplied by the Colonization Finance Corporation covers at present all of the arable land in Manitoba from the international boundary north to township 38, and the Eastern part of Saskatchewan as far as Regina. On July 1st we established a farm management zone in the Swan River area, the only district we had not covered until this year.

The object of this inspection trip

for my associates and myself is to inspect the work which is being carried on, to note how it is being regarded by the individual farmers and the communities and districts in which we operate, and to give us the necessary information with which we can formulate a policy for the future of this work, which I believe to be worth while. As rapidly as conditions warrant, and as qualified men can be obtained and trained for farm managers, we hope to open new zones. The necessary attention to detail and the cost of this work are naturally limiting factors.

While Mr. Somerville and I have met most of the farm managers last year, I am particularly pleased with the conference arranged at Clear Lake in the Riding Mountain National Park which will give Mr. A. N. Mitchell, and our Vice-President Mr. J. F. Weston, an opportunity of meeting and sizing up our men in the field.

There was one change made in our personnel during the year. Mr. O. S. Longman, zone manager at Indian Head, was appointed Field Crops Commissioner for the province of Alberta and he was succeeded by Mr. W. C. McKilloch, former Dean of the Manitoba Agricultural College, whose zone we shall visit. Our trip last year took us through Southern Manitoba, particularly that portion affected by the drought and Southern and South Eastern Saskatchewan. This year we have planned to visit the eastern portion of the Red River Valley; we shall visit the Portage Plains and the Assiniboine and Neepawa districts, and we expect to visit the Swan River Valley. We shall be accompanied by Mr. W. H. McKilloch, by a number of our local managers in the West, and officials of our corporation. In Saskatchewan we expect to visit farms in the Canora, Yorkton, and Indian Head zones. We shall bring our Colonization Finance Corporation inspection trip to a close at Regina, after which some of our party are returning East where they are proceeding westward on business of their respective individual companies."

Basis For Security

Complete prevention of war, not simply a futile attempt to humanize it, will give the world the security it wants, Arthur Henderson, president of the disarmament conference, told the Co-operative Societies of England at a meeting in London.

Faster News Service

Events Transmitted In Minutes Used To Take Months

The death of Napoleon was not known on lonely St. Helena was not known in London until two months had passed, but when the Napoleon museum was formally opened on the same island last November, the news was received in Paris within a matter of a few minutes. M. Charles Houssaye, vice-president of the Havas agency, told assembled French and Canadian newspapermen at the French press conference in Quebec, two long months in the one case, a few minutes in the other, provided striking testimony to the progress realized in the past 113 years in the transmission of news, and the French journal.

The Havas agency, said M. Houssaye, was founded in 1825 as the first news collecting agency.

M. Houssaye explained how the radio had helped to speed news transmission in the present day and overcome many obstacles. Transmission of news between the United States and Paris by radio had greatly increased the volume of news exchanging.

Governs Arctic Land

Russian Woman Goes To Isolated Area In Siberia

Graduating from the University of Leningrad three years ago, a young woman has now been appointed governor of the northernmost district of Siberia, Severnaya Zemlia. She is Nina Rindtsova Lovliev, who first became prominent as an explorer, when she accompanied the 1926 expedition to Franz Josef Land as the only woman member of the party. Her country is at the moment cut off from the rest of the world by ice, but her station has two years' food supply. In a recent radio message she said: "The climate of the winter night has descended on us. Great ice masses are driving the big game away. But there must be no hands that are inaccessible."

WEEKLY SERMONETTE

"That lost portion of a man's life—
his little, nameless, unremembered
moments of kindness and of love"

Here and There

Some from Dominion champion-
ship track in the Dominion
and American competition
was won recently by the Cana-
dian team. The team was
composed of a team of 125
pounds and a team of 150
pounds.

One of the most famous of the
Canadian team was the Canadian
team, who were the first to
win the gold medal in the
100 yard dash.

John Smith and his wife
were the first to win the
gold medal in the 100 yard
dash.

Captain R. G. Latta, skipper of
the Canadian team, was the
first to win the gold medal in
the 100 yard dash.

Indicating the trend towards
greater production and recovery
of business, educational increase
in the second quarter of 1934
is shown by the corresponding
period of 1933 in the respec-
tively published production fig-
ures of manufacturing plants and
mining, one of the world's greatest
industries.

During a highly decorated
banquet at the Dominion Hotel
last night, the Canadian team
was the first to win the gold
medal in the 100 yard dash.

During a highly decorated
banquet at the Dominion Hotel
last night, the Canadian team
was the first to win the gold
medal in the 100 yard dash.

KNOX UNITED CHURCH NOTES

The Rally Day Service on Sun-
day morning and the Harvest
Thanksgiving Service on Sunday
night were well attended and help-
ful.

The social gathering on Thursday
night to welcome the Pastor back
after his visit to Ontario was most
enjoyable.

A good programme, arranged by
Miss Kendrick, had been prepared.
Mr. Chambers made an efficient
chairman. Musical numbers ren-
dered by Mr. and Mrs. Beaman
and Miss E. Liesemer; songs by Messrs.
J. Robertson, A. Robertson, H.
Steeley and A. Webster (Westcott)
a violin solo by Mary Beaman
delighted an appreciative audience.
Mr. Mitchell gave a short descrip-
tion of his trip and attendance at
General Council.

Mr. W. A. Austin moved the thanks
of the gathering to all concerned
and participated in the refresh-
ments prepared and served by the
Ladies Aid. It was felt that such
social gatherings should be more
frequently held in connection with
the church.

The C.G.T. Group met at the
manse on Tuesday when after Bible
instruction by Mrs. Mitchell and the
transaction of business, Mrs. Huger
gave her first lesson on election.
At the next meeting Handcraft will
be taken up under the direction of
Mrs. Klein and Mrs. Wallace.

The Sacrament of the Lord's
Supper will be observed (D.V.) on
Sunday October 21st at 7.30 p.m.

The Sermon Subject on Sunday
Oct. 14th will be "The Valley of the
Task." The disciples of Jesus
failed Him—are church members
today failing and if so is their failure
due to similar reasons? Come
and ascertain. Every member is
urged to be present.

Chartered Banks Will Assist New Investors In Refunding Loan

For the particular convenience of
new investors who wish to subscribe
in modest amounts for the bonds of
the 1934 Refunding Loan, the char-
tered banks have agreed with the
Dominion government to loan up to
75% of the par value of bonds pur-
chased by new investors.

For example: a \$100 bond may
be purchased with a deposit of \$25;
a \$500 bond with a deposit of \$125;
a \$1,000 bond with a deposit of \$250.
In each case the balance of payment
may be spread over periods up to
6 months, and the banks will carry
the bonds at 4% interest.

Create Livestock Marketing Board

Creation of a provisional livestock
marketing board for the province of
Alberta was announced on Tuesday
by Hon. F. S. Grisdale, minister of
agriculture.

In announcing the personnel of
this board the minister stated that
he had sought to make it as repre-
sentative as possible of all phases of
livestock production in the province.
Functions of the board, Mr. Grisdale
pointed out, were to seek a common
ground for the solution of the many
pressing problems of the industry,
and to determine the line of action
producers desire to take in securing
for themselves benefits which may
lie in the natural products marketing
act.

The provisional livestock market-
ing board will meet in Edmonton at
10 a.m. Wednesday, October 17.
If a marketing scheme satisfactory
to the board members is evolved at
or following this meeting it is con-
sidered likely that a general confer-
ence of livestock producers will be
called within a few weeks, to which
all recognized livestock organizations
will be invited to send accredited
delegates.

Every assistance possible is being
given all producers of agricultural
commodities that they might devise
and present to Ottawa marketing
schemes under the marketing act.
Mr. Grisdale stated, but the initiative
formation of same is entirely in the
hands of the producers.

LOCAL & GENERAL

See "Woodie" for Coal.

Mr. Bill Sutherland of Ponoka
spent the holiday with friends here.

Looseleaf pads for maps, etc.—
5c each at the Pioneer

Mr. W. E. Morron of Lethbridge
spent Thanksgiving at the home of
Mr. and Mrs. H. M. Reiber.

Mr. and Mrs. Ellis Barnes re-
turned from Bellingham, Wash. on
Saturday.

Messrs J. J. Goetz and Hank Wall
were business visitors in Calgary for
a couple of days the first of the week.

Miss Mildred Spiese of St. Cather-
ine's is visiting her parents, Mr.
and Mrs. F. S. Spiese.

Teachers—Before purchasing your
report cards see the sample at our
office.—Didsbury Pioneer

The Messrs Wynne Stader and
Florence Reiber were weekend visit-
ors in the city.

Mrs. C. Ratcliffe and children of
Kimberley, B.C. are visiting the
former's parents, Mr. and Mrs.
M. B. Clemens for a few weeks.

On Sunday, October 14 the Luth-
eran pastor is preaching at Clares-
holm, therefore there will be no
services at Westcott or Didsbury.

Mr. and Mrs. Harold Clemens
and daughter Jean of Edmonton
spent Thanksgiving with their par-
ents, Mr. and Mrs. M. B. Clemens.

Dr. and Mrs. McGuffin and Miss
Mitchell of Calgary were guests of
the latter's parents, Rev. and Mrs.
A. J. Mitchell, for the Thanksgiving
holiday.

The I.O.D.E. intend giving an
art and antique exhibit on Oct. 27.
If you have anything of interest
in antiques, art or handicraft you
are invited to bring them in.

Miss Leah Purdy of Sarnia, Ont.,
returned Friday to resume her stud-
ies at the Bible School. She was
accompanied by two new pupils,
Miss Blanche Bright and Miss Mary
McPhee, of Petrolia.

Miss M. Finlay, missionary on
furlough from Nigeria, West Africa,
will give an address in the M.B.C.
Church on Sunday evening, Oct. 14
at 7.45. The message will be illus-
trated with lantern slides. All are
invited to attend.

St. Cyprian's W.A. will hold a
card party at the home of Mrs. Lovrie
tomorrow (Friday) evening. This
will be the first of a series of parties
to be given throughout the winter.
They have always proved popular,
and friends are invited.

On Sunday, October 14 at the
Mountain View Community Hall,
Miss M. Finlay, missionary on fur-
lough from West Africa, will speak,
her message being illustrated with
lantern slides. Sunday school at
10:30 a.m., message to follow.

Mr. James Bremner, secretary of
the Canadian Jersey Cattle Club,
writes that the Jersey cow "Didsbury
Sultan's Gertie," bred by Norman
Clarke and owned by Fred Veasby
of Calgary, has completed a record
at 2 years and 83 days of age of
8,880-lbs. milk and 516 lbs. fat,
with an average test of 6.15 per cent
in 365 days.

Mr. A. G. Stader entertained
Messrs. T. Johnson, J. Kirby and
Clint Reiber to the annual Thank-
sgiving shoot from his cottage at
Sylvan Lake. The party drove up
on Sunday and were on the track of
the birds early. Each got his limit
of partridge and chickens and also
a good bag of ducks and Huns.
A.G. is already planning next year's
shoot.

At the Olds School of Agriculture
preparations are underway to make
the coming of age (21 years) of the
school the most outstanding event
in the institution's history. Although
it will be in the form of a reunion
of students, there will be meetings
to which the public will be invited.
It is to be a two-day celebration,
and the dates are November 13 and 14.
The founder of agricultural schools
in Alberta (Hon. Duncan Marshall)
has accepted his invitation to attend,
so also have Hon. Frank S. Grisdale,
minister of agriculture for Alberta,
and Hon. J. G. Taggart, minister of
agriculture for Saskatchewan.—Olds
Gazette.
